Introduction

The Overall Program Design is a planning and management tool which is used to assist the Council approach its work program in an orderly and comprehensive manner. It provides a detailed outline of the Council's work program for the fiscal year. Strategies, standards, objectives and long-range elements are re-evaluated, based upon previously identified problems and priorities. This is the 48th annual update of the work program.

The Program Committee is responsible for reviewing and evaluating the overall work program of the organization and making recommendations for alterations in it to the Council. Several indicators have been used to determine the future direction proposed by the Program Committee. However, primary guidance came from priorities established in past years with consideration being given to recent actions taken by the Council.

During the current program year, Council activities and discussions at meetings have highlighted the need for continued emphasis on economic development programs and for the provision of technical assistance and support to local governments. Regional planning has also continued to be a topic of discussion.

These program areas are reflected in this Overall Program Design to the extent possible, as they have been in previous years.

Chapter III: Regional Planning

The Florida Regional Planning Council Act, passed in 1980 and subsequently amended in 1982, 1992 and again in 1993, requires that each regional planning council prepare and adopt a Strategic Regional Policy Plan. The Strategic Regional Policy Plan must be based upon studies of the region's resources and be consistent with the State Comprehensive Plan. The Act requires that once the Strategic Regional Policy Plan is adopted, it must be utilized by regional planning councils as "the basis for regional review of developments of regional impact, regional review of federally assisted projects, and other regional comment functions."

The Act directs that the Strategic Regional Policy Plan contain goals and policies specifically to address growth management issues. The plan must identify key regional issues, document trends, forecast future conditions, and analyze the problems, needs, and opportunities associated with growth in the region. Further, the regional goals and policies shall be used to develop a coordinated program of regional actions directed at resolving the identified problems and needs.

The Strategic Regional Policy Plan must, at a minimum, address affordable housing, economic development, emergency preparedness, natural resources of regional significance, and regional transportation. It may also address other subjects which relate to the particular needs and circumstances of the regional planning district as determined by the regional planning council. Furthermore, consideration must be given to existing state, regional, and local plans in preparing the Strategic Regional Policy Plan.

In addition to the preparation of the Strategic Regional Policy Plan and its maintenance, the Council also undertakes specific regional programs as are necessary or deemed appropriate. Other on-going programs include economic development, public safety and transportation disadvantaged program.

a. Strategic Regional Policy Plan

Work Element: The Strategic Regional Policy Plan "shall be developed through a collaborative process that emphasizes consensus and coordination between local governments, regional entities, state and federal agencies, other appropriate organizations, and the public. Thus, the plan is a plan for the region, not merely for the regional planning council. Regional goals and policies shall be used to develop a coordinated program of regional actions directed at resolving identified problems and needs. At a minimum, the plan shall contain regional goals and policies that address affordable housing, economic development, emergency preparedness, natural resources of regional significance, and regional

transportation, and shall identify significant regional resources and facilities. The Strategic Regional Policy Plan shall be strategic rather than comprehensive in nature and need not address all goals and policies in the State Comprehensive Plan. However, goals and policies included in the Strategic Regional Policy Plan shall be consistent with and further the State Comprehensive Plan." (Rule 27E-5, Rules of Practice and Procedure Pertaining to Strategic Regional Policy Plans)

During the 1995-96 program year, the Council completed the development of the Strategic Regional Policy Plan, and it was amended during the 1996-97 program year, 2002-03 program year, 2011-12 program year and 2017-18 program year.
