DATE: January 15, 2015
TO: Regional Planning Committee
FROM: Steven Dopp, Senior Planner
SUBJECT: North Central Florida Strategic Regional Policy Plan
Evaluation and Appraisal Report - Proposed Review Schedule

In a manner similar to the process required by local governments, every five years each regional planning council is required to perform an evaluation and appraisal of its regional plan. The due date for the North Central Florida Regional Planning Council Evaluation and Appraisal Report is January 1, 2016.

The purpose of an Evaluation and Appraisal Report is to evaluate the progress of the regional plan at achieving its goals and in implementing its policies. The Evaluation and Appraisal Report should identify those areas of the plan in need of revision based upon new information, new or changing State Comprehensive Plan policy or changing regional trends and conditions. The guidance for performing the Evaluation and Appraisal Report review is provided in Rule 27 E-5, Florida Administrative Code.

The evaluation and appraisal process consists of two steps. The first step involves the preparation and adoption of the Evaluation and Appraisal Report. The second step involves the preparation of amendments, if applicable, to the regional plan. Such amendments are required by Rule 27 E-5, Florida Administrative Code, to occur within one year of the Evaluation and Appraisal Report due date.

The Council's regional plan contains five strategic regional subject areas (Affordable Housing, Economic Development, Emergency Preparedness, Natural Resources of Regional Significance, and Regional Transportation), lists and maps of regionally significant resources and facilities, a coordination outline, as well as an appendix which contains the Council's dispute resolution rule, a glossary of terms, maps of natural resources of regional significance, and descriptions of listed species habitats. Staff will assist the Regional Planning Committee in its review the regional plan. Based upon the Committee's review, staff will assist the Committee in drafting the Evaluation and Appraisal Report for the Council to consider at its September 2015 meeting.

Most of the data contained in the regional plan is from the 2000 Census. Year 2010 Census information was largely unavailable for the last update to the regional plan. Consequently, proposed amendments to the regional plan will likely include updated tables reporting 2010 Census data. Other areas of change will likely reflect various changes to Florida Statutes which have occurred since October 2011, the adoption date of the current version of the regional plan.

It is recommended that the Regional Planning Committee meet monthly, on the same evening as regularly-scheduled Council meetings, to prepare the Evaluation and Appraisal Report. A proposed schedule of the Regional Planning Committee meeting is attached to this memorandum.
