* No meeting materials provided

** Full color version of meeting materials provided on MTPO website.

May 16, 2012

TO: Level of Service Subcommittee
FROM: Michael Escalante, AICP, Senior Planner
SUBJECT: 2010 Gainesville Urbanized Area Map

STAFF RECOMMENDATION

Approve the level of service facility modifications for area type and termini as shown in Table 1 for the 2012 Multimodal Level of Service Report.

BACKGROUND

Each year, the Metropolitan Transportation Planning Organization for the Gainesville Urbanized Area updates its Multimodal Level of Service Report. Recently we received the 2010 Gainesville Urbanized Area map from the United States Census Bureau. This information needs to be into the level of service analysis. This planning activity will be separate from the development of the 2010 Census-based recommendations for the metropolitan planning area boundary and governing body.

The enclosed Map 1 shows the 2010 Census Gainesville Urbanized Areas overlaying the 2000 Census Gainesville Urbanized Areas. This overlay shows expansion and contractions of the Gainesville Urbanized Area.

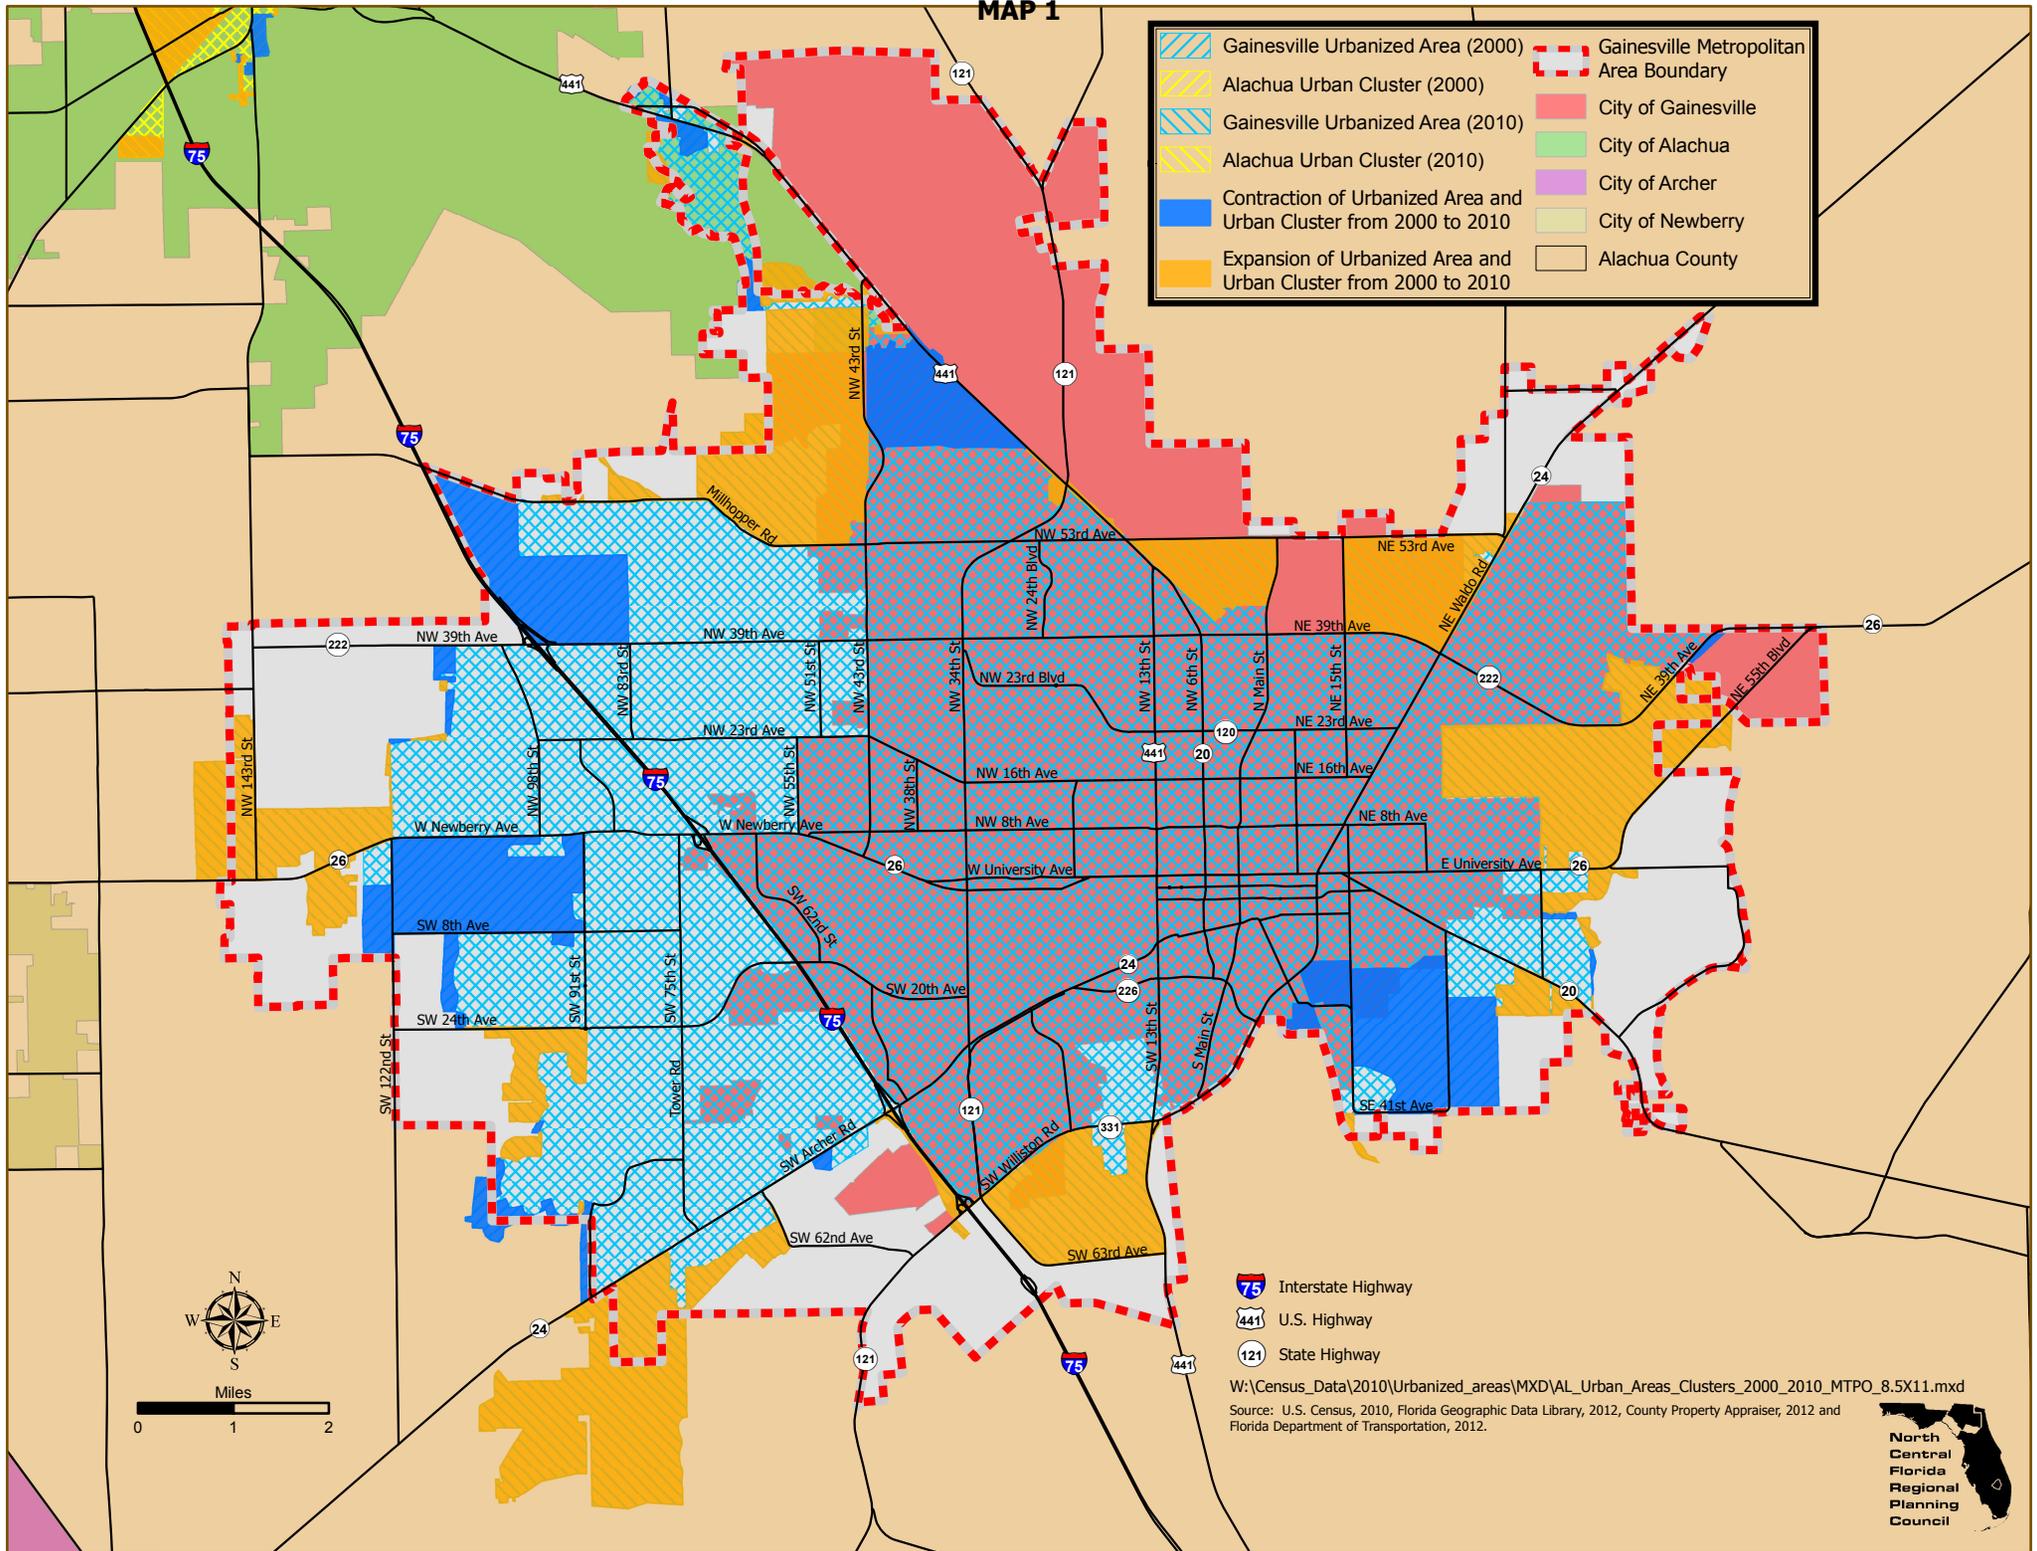

The enclosed Table 1 shows a listing of level of service facilities that are impacted by the changes to the Gainesville Urbanized Area and proposed modifications for facility termini and area type.

The enclosed Exhibits 1, 2 and 3 are excerpts from the Multimodal Level of Service Report that show the current facility termini.
